

ANALYZING WORKPLACE INJURIES IN THE Administrative and Support and Waste Management and Remediation Services Industry

To reduce workplace injuries and fatalities, we must understand when, why and how they happen. Having these specific analytics on hand will allow businesses in hazardous industries to target problem areas and initiate solutions that will lower the number of workplace accidents.

The Administrative and Support and Waste Management and Remediation Services (ASWMRS) sector is comprised of establishments performing routine support activities for the day-to-day operations of other organizations. The establishments in this sector specialize in one or more of these support activities and provide these services to clients in a variety of industries and, in some cases, to households. Activities performed include: office administration, hiring and placing of personnel, document preparation and similar clerical services, solicitation, collection, security and surveillance services, cleaning, and waste disposal services.

The highest number of injury incidents in the ASWMRS industry occurred:

at

We must understand why, when and how workplace injuries and fatalities happen. Then, we can target the problem areas and initiate solutions to lower the number of workplace accidents.

ON-SITE SAFETY AND HEALTH CONSULTATION PROGRAM: Helps businesses maintain OSHA compliance through one-on-one consultations. Consultants identify and assist in correcting site-specific safety and health hazards without assessing any fines or penalties.

WORKERS' SAFETY PROGRAM: Helps businesses improve their workplace safety procedures and reduce workers' compensation insurance costs. We start by identifying the needs of your company and then connect you with individualized resources.

MINE AND CAVE SAFETY PROGRAM: Works to eliminate hazards and reduce accidents in Missouri's mines and show caves. We offer specialized education and training, as well as step-by-step implementation of safety plans that focus on building better habits on the job.
