

Missouri is assessing the President's August 8, 2020, Executive Order regarding additional unemployment benefits. At this time, we are awaiting detailed guidance from the US Department of Labor. Once Missouri receives those details, we will work as expeditiously as possible to determine what actions are the most beneficial for all Missourians. We will share that information via our website, social media, and email messaging. Our unemployment call agents are not able to provide any additional information at this time.
