

As a continued part of the state's IT modernization efforts, UInteract is now mobile-device friendly, making filing a weekly request for payment, a new unemployment claim, or a renewed unemployment claim online even better.

With the addition of UInteract's mobile friendly feature and the passage of Senate Bill 90, beginning Sunday, September 1, 2019, the automated phone system currently available Wednesday through Saturday for filing weekly requests for payment and used for filing new and renewed unemployment claims will no longer be available.

To file your weekly request for payment, access UInteract at [uinteract.labor.mo.gov](http://uinteract.labor.mo.gov). Once you log in to UInteract, simply select "Weekly Request for Payment" and follow the prompts.

To file a new or renewed unemployment claim, access UInteract at the website above, select "Unemployment Claim" and follow the prompts.

If you do not have internet access, you may visit your local Job Center. The reverse side of this letter contains additional instructions on logging into UInteract.

- Did You Know? In addition to filing a new or renewed unemployment claim and your weekly request for payment, you may also use UInteract to check the status of your benefit payments, review your account history, update contact and payment information, authorize income tax withholding, sign up for paperless communication, and if necessary, file an appeal.

Questions? Email us at [esuiclaims@labor.mo.gov](mailto:esuiclaims@labor.mo.gov) or contact one of the Regional Claims Centers. We appreciate your cooperation and are committed to assisting you during this exciting transition.
