Date: July 1, 2019

To All Workers' Compensation Insurers, Claims Administrators, Third-Party Administrators, Self-Insured Employers and Trusts

The Missouri Division of Workers' Compensation (MODWC) will soon be transitioning from the IAIABC EDI Claims Release 1 standard to the IAIABC EDI Claims Release 3.1 standard for electronic reporting of workers' compensation First Reports of Injury (FROI) and Subsequent Reports of Injury (SROI). The mandatory implementation is planned for July 2021, though the exact date will be announced later. Additional information on the IAIABC EDI R3.1 transactions for FROI and SROI can be found online at the IAIABC website, <http://www.iaiacb.org>.

Electronic reporting using IAIABC Claims Release 3.1 will be required for all trading partners: insurers, self-insured employers and trusts, third-party administrators and claim administrators.

The MODWC has contracted with ISO's Workers Compensation Standards Division, to manage their FROI and SROI EDI reporting. ISO will also be administering registration of trading partners, testing, data collection and submission of EDI data to the MODWC.

MODWC will provide an enhanced EDI Website which will contain the following:

- EDI Vendors that may assist with EDI reporting
- Implementation Information that will provide additional support for the MODWC EDI Reporting Requirements
- Frequently Asked Questions (FAQs) for EDI
